IT HAS THE PENNSYLVANIA AND VANDERBILT LINES TO FIGHT.

Report of Receiver Malott, of the Vandalia-Investors Buying L. E. & W. Stock and Securities.

A clear-headed railway official remarked yesterday that he was satisfied that the Eel River road, now owned by the Logansport & Toledo Railway Company, was a joint purchase of the Pennsylvania and the Vanderbilt lines; that the future would develop that the Pennsylvania and the Vanderbilt lines have been buying the stock of the Evansville & Terre Haute, and that both the Eel River and the Evansville & Terre Haute will be operated in the interests of the syndicate named. The Pittsburg Post says: "This will be a direct invasion of Wabash territory, as hitherto that line had a monopoly of the Detroit and St. Louis and the Toledo and St. Louis business, as the Pennsylvania Company never made any attempt to handle through business between these points. It is believed now that this is a plan of the Pennsylvania and the Vanderbilts to get back at the Wabash, and that if the Wabash people come into Pittsburg the Pennsylvania and the Vanderbilts will immediately establish a through line from all the points named above, and that the Lake Shore, Michigan field artillery For information apply to recruit- Central, Nickel Plate, Fort Wayne and Panhandle will cease to give any business to the Wabash, but will send it via South and shearmen are offered full rates at jobs in Bend, or from Fort Wayne to Logansport. started; full protection and steady work guaranteed. When the Lake Erie & Western became the property of the Lake Shore it was anticipated that extensive improvments would be made and would be paid for out of the road's earnings. It was expected that probably two years would elapse before the property could be rebuilt and placed in satisfactory condition, but so promising is the future of the road and so handsome has been the increase in its earnings that it is attracting attention of conservative investors. The preferred stock now pays 4 per cent., but is entitled to 6 per cent., and it is believed that the improvements will be completed and the stock receiving 6 per cent. dividend next year.
